Company

## Nature Of Opinion

Docket Number: WS-02987A-16-0017

Docket Position: For

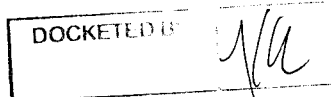

I am for Swing First to be able to continue to receive effluent water under the rates and tariffs approved previously. I am not in favor of Johnson Utilities making a decision without ACC approval to stop delivering effluent water and thereby increasing cost of water service to Johnson Ranch Golf Course expecially when JU continues to provide effluent water to other golf courses serviced by JU. I understand that JU has stopped delivering effluent water to the golf course owned by Swing First. How can a company ignore a decision set down by the commission? Are you a commission in name only, or does your commission take responsibility for settling issues like this and does this commision have the power to enforce your decisions. If not, why do we even have one? Why is it taking so long to get this settled? I am sorry to say, but this commission needs to step up, put on their big boy panties and face off against Johnson Utilities. It appears the commission is allowing this company to set their own rules and timelines and allowing the company to totally ignore an issued directive. This needs to stop.....and if the person reading this is an elected official and you have accepted donations from Johnson Utilities so that you will stonewall any complaints against JU, SHAME ON YOU. This is ridiculous.
